

ISMAIL AKTAMIROV

DATA ANALYST

Autonomous and detail-oriented, I develop data-driven digital solutions, turning data into actionable insights through analytics, BI, and geospatial tools while ensuring quality and timely delivery.

PROFESSIONAL EXPERIENCES

FOUNDER

Vadilion Digital, Brussels, Belgium | 10/2024 - Current

Facing challenges in securing a long-term contract, I founded Vadilion Digital to showcase my expertise through high-value, data-driven digital products.

My first product, Smart-In, is a territorial analysis platform that helps entrepreneurs identify optimal business locations using Python, QGIS, geospatial analysis, and business intelligence.

vadiliondigital.be

DATA ANALYST

Consulting - Brussels, Belgium | 01/2024- 10/2024

Worked as an entry-level Data Analyst in a consulting environment, supporting multiple clients across industries. Focused on cleaning and preparing Excel datasets and building automated dashboards using Excel, Power BI, Looker Studio, and Tableau.
